

Player Responsibilities List

aka The List List

KEY PLAYER RESPONSIBILITIES

Players are responsible for their jobs, and - in the case of an absence, the job(s) of the **person above you** in the 'Order of Responsibility' list. With Kim being responsible for Sean's job(s) if he should be absent. This is not to say YOU have to do that job, but such that: If Pete were absent, Kim would be responsible to make sure that someone at the table knows they are responsible for 'Taking Notes', and how to do this job - As such, you should familiarize yourself with the tasks of the person above you. Again this doesn't mean you have to do it, but make sure it does not go undone in the event of the primary's absence. This includes their inherited responsibilities should two adjacent players be absent.
